At Avidea, nature is  
everywhere you look

# A NEW WELLNESS OASIS IN NORTHERN ITALY

Relaxed, pampered and utterly carefree: that sums up a vacation at *Hotel Avidea*. After an extensive revamp, it's a sophisticated mix of nature, design and la dolce vita.

Savoring beauty – that would be the most appropriate translation of the name Avidea. A choice that is no coincidence, as this adults-only boutique hotel outside Lagundo in the South Tyrol re-opened its doors with a completely new, modern look at the end of April 2024, following a comprehensive makeover and redesign.

The original 32 rooms here have been converted into 29 bright, modern suites for design-loving guests. The larger rooms offer even more space for daydreaming and the perfect ambience to unwind in. In the interior, local materials meet a minimalist design with earthy tones and soft textiles inspired by nature. Among the highlights are

the Garden Suites, which feature a small private garden and terrace. A few of them even have a hot tub for that extra bit of private wellness and a touch of luxury.

The new rooftop oasis with a heated sky pool and a chill-out lounge is the place to hang out and meet people. While taking a dip here, you can soak up the unique panorama of Northern Italy with its apple orchards, forests and mountain peaks laid out in front of you. For an even deeper connection with the surroundings, immerse yourself in nature on hikes, climbing excursions and bike tours in the countryside right outside the hotel.
